Ira D. Goldfine, M.D.
Department of Medicine and Physiology
University of California, San Francisco
Mount Zion Medical Center
1600 Divisadero Street, P. O. Box 7921
San Francisco, CA 94120

Subject: Molecular Mechanisms Common to Types I & II Diabetes
Place: Park City, Utah
Date: January 14-21, 1994

Dear Dr. Goldfine:

The Scientific Director and Staff of the Council for Tobacco Research, USA, Inc. have considered your request for partial support for the above noted conference. This meeting is in an area in which we have interest. Unfortunately, competition for research funds has meant that we are unable to fund a number of meritorious requests for support this year.

Although we are unable to lend assistance for this particular function, we hope that you will not hesitate to contact us about funding of future meetings.

Sincerely yours,

George A. Hashim,

cc: Dr. Harmon McAllister
